

November 4, 1955

Dear Ed:

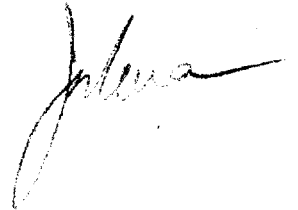

Here's a copy of my application to our Research Committee which, I hope, embodies what we had agreed upon before.

Dr. Irwin thought it would be a good idea if you would write directly to Dr. Elvehjem, for the record, to indicate why you think the visit is worthwhile. (i.e., mutual benefit, etc.)

When you have a chance, would you let me know as to the availability of and equipment on your phase microscope. We will be buying another one here, and this will give me a chance to review equipment now on sale, in case any further accessories are likely to be needed.

The meetings were a lot of fun, but not nearly so much as the private tete-a-tetes.

Sincerely,

A handwritten signature in cursive script, appearing to read "John", is written in dark ink.
